

Halk Emeklilik: Boosting Sales Performance with the SAP® BusinessObjects™ Business Intelligence Platform and SAP IQ

From Istanbul to Ankara and beyond, Turkish citizens are securing their future and that of their loved ones by relying on private pension and life insurance plans from Halk Hayat ve Emeklilik A.Ş. (Halk Emeklilik). Company sales are growing rapidly, fueled by the government's decision to match 25% of each individual's contribution to a private pension plan as an incentive to boost savings. To maximize its growth potential and sales performance, Halk Emeklilik started looking for a new data warehouse solution and reporting engine.

Halk Emeklilik selected the SAP® BusinessObjects™ Business Intelligence platform running on SAP IQ database software and turned to MDS ap Turkey, an SAP gold partner, for implementing the solution. Now up and running, the new software accelerates access to critical business data and simplifies reporting for senior management and sales representatives. The result? Sales reporting is up to eight times faster, driving revenue by enabling management to keep a close eye on field sales performance.

Driving fact-based performance metrics and decisions
